

## AGENDA

### CCV PARK AND GREEN SPACES COMMITTEE MEETING

Monday, May 11, 2015

1:00 p.m.

The Village Board has asked that Dr. Feather revise his current proposed plan as he deems appropriate to incorporate plantings that would be agreeable with and address concerns raised by the committee, while maintaining the objectives outlined below:

- Cost effective plan
- Resilient, sustainable, easy to maintain, hearty plant species
- Year-round greenery as a backdrop to the Village Hall and to screen unsightly mechanical equipment and rodent bait stations that exist around the building
- In keeping with the original plan, present a variety of plant materials for use in the various areas under consideration

Dr. Feather's revised plan will be presented back to the Board of Managers for final approval, likely at the Board's June 8 regular monthly meeting.
